Revenue and Disaster Management Department

Sub: Regarding rectification in RoR with multiple owners by removing "Comma" or "Space".

Sir,

With the reference to the above subject, it is to bring to your notice that during the process of farmer enrollment in the farmer registry, in a huge number of cases certain discrepancy as mentioned below is observed which hinders the registration process.

The cases where there are multiple owners' name present in ROR separated by "Comma" or "Space", the owner details are not being fetched properly. It is expected that each owner must be fed in RoR in separate rows so that each owner can be assigned farmer id respectively against the farm ids owned by him/her. This issue leads to the NMS "0" while such farmer is registering his/her name in Farmer Registry portal.

In land records, usually the landowners are stored individually. Therefore in cases where the names are comma separated or space separated, the data of such needs to be corrected by concerned Revenue Department personnel i.e. Tehsildars. As per the suggestion from NIC officials, there is a provision to correct the data in mutation application if correct details of farmers – village name and khata numbers are provided. The district wise data of such cases will be shared by NIC Bhubaneswar which may please be forwarded to the Collector and District Magistrates to get the RoR corrected by the Tehsildars so that sharing of the data between the applications will be successfully and securely done and the farmer registration process can continue smoothly.

It is requested to kindly pass necessary instructions accordingly.

Yours faithfully,

Principal Secretary to Government
